BRIEF SUMMARY

I am learning about full stack development technology and I would like to pursue a career in this technology and learn new things about the technologies and the different aspects of technology like front-end development back-end development and different technologies aiding the technologies.
I am willing to learn new technologies and skills related to my interest as well as I am willing to learn new skills that will help me grow but also branch into different modules that are related to my field of interest.
I am keen and hard working towards achieving what I am assigned to achieve as well as a personal achievement of stability
